

Interested in Becoming a Chemistry, Physics, Engineering, or Computer Science K-12 Teacher?

Come hear exceptional UCSB undergraduates, UCSB faculty, and K-12 teachers talk about paid undergraduate internships in classrooms and scholarship opportunities for teacher education programs.

Wednesday, November 19th, 12 noon
Physical Sciences Building North (PSBN), Room 4606
FREE PIZZA!

UCSB's CalTeach Physical Sciences and Engineering (CTPSE) program supports chemistry, physics, engineering, and computer science undergraduates in exploring teaching as a career. It also provides scholarships to teacher candidates in these areas. CTPSE is funded by the National Science Foundation's Noyce Teacher Scholarship Program.
