

# Interested in Becoming a Science, Mathematics, Engineering, or Computer Science (STEM) K-12 Teacher?

Come hear exceptional UCSB undergraduates, UCSB faculty, and local STEM teachers talk about the CalTeach undergraduate program, paid undergraduate internships in classrooms, and scholarship opportunities to attend UCSB's Teacher Education Program.

**Tuesday, February 10th, 12 noon**  
**Physical Sciences Building North (PSBN), Room 4606**  
**FREE PIZZA!**

UCSB's CalTeach program provides opportunities for STEM undergraduates to explore STEM teaching as a career and offers a Minor in Science and Mathematics Education. CalTeach also supports two National Science Foundation Noyce Teacher Scholarship Programs for STEM teacher candidates in UCSB's Teacher Education Program: CTPSE and STELLER.
