

Interested in Becoming a Science, Mathematics, Engineering, or Computer Science (STEM) K-12 Teacher?

Come hear exceptional UCSB undergraduates, UCSB faculty, and local STEM teachers talk about the CalTeach undergraduate program, our minors in both elementary and secondary science & math education, paid undergraduate internships in classrooms, and scholarship opportunities to attend UCSB's Teacher Education Program.

Friday, February 19th, 12 noon
Physical Sciences Building North 4606
FREE PIZZA!

UCSB's CalTeach program provides opportunities for STEM undergraduates to explore STEM teaching as a career and offers a Minor in Science and Mathematics Education (both an elementary and secondary track). CalTeach also supports two National Science Foundation Noyce Teacher Scholarship Programs for STEM teacher candidates in UCSB's Teacher Education Program: CTPSE and STELLER.
